SUMMARY

Motivated Computer Science undergraduate currently pursuing my second year (sophomore) at RNS Institute of Technology. Passionate about problem-solving, software development, and learning modern technologies. Actively seeking an internship to gain real-world experience, improve my technical skills, and contribute to meaningful projects.

EDUCATION

SRI CHAITANYA TECHNO SCHOOL (CBSE):

- Secondary Education [10th boards] (MARKS: 94.6%) | 2022
- Higher Secondary Education [12th boards] (MARKS : 89.8%) | 2024

RNS INSTITUTE OF TECHNOLOGY :

- First Year UG (CGPA: 9.95) | 2025

TECHNICAL SKILLS

- Python : Familiarity with syntax, standard libraries and problem-solving
- C, Java : Good grasp of basic data structures and algorithms, and OOP concepts
- SQL : Able to write queries, joins, filters, and manage small datasets
- Frontend : Basic understanding of HTML, CSS and JS for web development
- Gen AI : Familiar with prompt engineering and LLM based application development

PROJECTS

Academic/Group Projects :

- Numeric Analysis of Grades (using Python) [I semester]
- Arduino Radar (using Servo motor, Breadboard, etc) [II semester]
- Smart Car Parking System (using C) [III semester]
- Multimodal Clinical AI Platform [IV semester]

Personal/Solo Projects :

- ApexForge: Personal consistent tracker website
- TrackYourBucks: An individual's Income/Expense Tracker

ACADEMIC & CO-CURRICULAR ACTIVITIES:

- Infosys Springboard : Front End Web Developer Certification (HTML5, CSS3, JavaScript)
- IBM course through Coursera : Python for Data Science, AI & Development
- IBM course through Coursera : Databases and SQL for Data Science with Python
- Coursera Project Network : Prompt Engineering with GPT: Programming for Custom Content
- EduPyramids : Completion of Git Training
- GeeksforGeeks: Regular practice of basic DSA problems (ongoing)
- Generative AI for Everyone by DeepLearning.AI : Everything about Generative AI (ongoing)

- Smart India Hackathon (SIH) : College-level qualification based on problem statement ideation and solution proposal.
- Code Carnage 2.0 : Participated in a 24 hour hackathon conducted by SJBIT, built a Multimodal Clinical AI Platform for Mental Health Diagnosis, using different models for facial, vocal and conversational signals to produce real time health assessments.

SOFT SKILLS

- Problem-solving
- Analytical thinking
- Communication
- Team collaboration
- Time management

INTERESTS

- Learning new technologies
- Attending tech events
- Building side projects
- Equity investing
- Productivity & self-improvement
