PROFESSIONAL SUMMARY

Self-driven Computer Science student passionate about Data Analytics, Artificial Intelligence, and Machine Learning. Experienced in Python, JavaScript, HTML, CSS, and Git through projects and internships. Eager to contribute to innovative solutions and apply analytical thinking to practical challenges in technology-driven environments.

EDUCATION

Bachelor of Engineering (Computer Science) RNS Institute Of Technology	2024 - 2028 Grade: Pursuing
Intermediate (Class XII) ASCENT PU COLLEGE	2022 - 2024 Grade: 97.66%
Matriculation (Class X) SHREE VIJAYA PUBLIC SCHOOL	2021 - 2022 Grade: 98.56%

INTERNSHIPS

AI Data Analytics Intern AICTE — Shell India — Edunet Foundation (Skills4Future Program)	August 2025 - September 2025 <i>India(Remote)</i>
--	--

- Completed a 4-week virtual internship focused on AI and Data Analytics for Green Skills.
- Developed a project on **Vehicle Smoke Detection using YOLOv8** to monitor vehicle emissions via CCTV footage.
- Applied AI and ML concepts to real-world environmental monitoring scenarios, leveraging GPT for code adaptation.
- Explored AI applications in sustainability, smart city solutions, and pollution control.

CERTIFICATIONS

Codequezt # 23 Coding Challenge Participation Certificate NAUKRI (Link)	September 2025
--	----------------

- Ranked **730 out of 18,878 participants** in a competitive coding challenge.
- Demonstrated problem-solving skills and coding proficiency through real-time algorithmic challenges.

Probability Distribution using Python INFOSYS SPRINGBOARD (Link)	August 2025
---	-------------

- Applied Python to analyze statistical distributions such as Normal, Binomial, and Poisson.
- Gained hands-on experience in data modeling, probability analysis, and risk assessment.

Statistical Inference using Python INFOSYS SPRINGBOARD (Link)	August 2025
--	-------------

- Strengthened ability to draw insights from data via hypothesis testing, confidence intervals, and p-values.
- Enhanced skills for data-driven decision-making and uncertainty management.

Probability and Statistics using Python INFOSYS SPRINGBOARD (Link)	August 2025
---	-------------

- Built a solid foundation in statistical concepts including central tendency, dispersion, correlation, and probability theory.
- Applied Python for practical data analysis and interpretation.

Introduction to Data Science INFOSYS SPRINGBOARD (Link)	August 2025
--	-------------

- Gained an understanding of the data science lifecycle and essential data structures.
- Developed analytical thinking for solving business and technical problems using data.

Write Professional Emails in English COURSERA (Link)	August 2025
---	-------------

- Improved business communication, focusing on clarity, structure, and professional tone.
- Enhanced confidence in collaborating and networking across teams.

Introduction to Sustainability COURSERA (Link)	August 2025
---	-------------

- Learned about climate change, energy, food systems, and environmental policy.
- Developed an understanding of sustainable decision-making in business and technology.

Life 101: Mental and Physical Self-Care COURSERA (Link)	August 2025
• Learned strategies to manage stress, improve focus, and maintain well-being. • Gained insights into personal resilience for high-performance environments.	
Troubleshooting and Debugging Techniques COURSERA (Link)	August 2025
• Acquired structured approaches to identify, analyze, and resolve software issues. • Enhanced efficiency and reliability in software development and data projects.	
Computer Hardware and Software COURSERA (Link)	August 2025
Strengthened understanding of computer architecture, operating systems, and IT systems troubleshooting.	
Prompt Engineering with GPT: Programming for Custom Content COURSERA (Link)	August 2025
• Learned to craft effective AI prompts for generating custom content. • Applied AI programming and natural language processing skills to automation tasks.	
Excel for Beginners: Sorting, Filtering, Data-Validation COURSERA (Link)	August 2025
Built foundational skills in data organization, analysis, and validation for efficient reporting.	
Create Informative Presentations with Microsoft PowerPoint COURSERA (Link)	August 2025
Designed visually impactful presentations and conveyed data-driven insights effectively.	
5 Ways to Build a Better LinkedIn Profile COURSERA (Link)	August 2025
Learned strategies to enhance professional branding and online networking presence.	
Data Visualization in Microsoft PowerPoint COURSERA (Link)	August 2025
Learnt to transform complex datasets into clear, impactful visual representations using charts, graphs, and infographics.	
This program strengthened my ability to communicate insights effectively and drive data-informed decisions.	
Git & GitHub: Introduction INFOSYS SPRINGBOARD (Link)	April 2025
• Gained practical experience with Git version control and GitHub collaboration workflows. • Learned repository initialization, branching, merging, pull requests, and collaborative project management.	
GitHub - Creating a GIT Project And GIT REPO Course Certificate INFOSYS SPRINGBOARD (Link)	April 2025
GitHub basics: Understanding Git version control and GitHub platform Creating Git projects: Initializing and managing Git repositories Collaboration: Working with others on GitHub projects	
Git & GitHub Working with Git Repositories Course Certificate INFOSYS SPRINGBOARD (Link)	April 2025
Just learned about working with Git and GitHub! Key Takeaways: * Git: Version control system for tracking changes in code. * GitHub: Web-based platform for hosting and collaborating on Git repositories. * Certificate: Earned a certificate in Git and GitHub ,demonstrating expertise in : 1.Creating and managing Git repositories 2.Collaborating on GitHub 3.Using git commands (e.g., commit, push, pull) Excited to apply these skills in real-world projects and collaborate with others in the tech community!	
Javascript Certificate INFOSYS SPRINGBOARD (Link)	March 2025
• Developed skills in JavaScript fundamentals, including variables, data types, functions, and loops. • Built dynamic, interactive web applications using client-side scripting.	
CSS Certificate INFOSYS SPRINGBOARD (Link)	March 2025
• Learned CSS fundamentals for styling web applications and creating responsive layouts. • Enhanced user interface design and front-end development skills.	
HTML5 Certificate INFOSYS SPRINGBOARD (Link)	March 2025
• Mastered HTML5 fundamentals to structure responsive and accessible web pages. • Developed foundational skills for web application development and front-end projects.	

SKILLS

Computer Languages: C, Python, JavaScript, CSS, HTML

Soft Skills: Communication Skills, Public speaking, Presentation Skills

Others: Git and Github

EXTRA-CURRICULAR ACTIVITIES

Completed and participated in multiple co-curricular activities and workshops focused on cutting-edge technology and knowledge of Indian heritage.

- **Generative AI Mastermind Workshop:** Completed the **Generative AI Mastermind** workshop provided by **Outskill**. This provided foundational knowledge and skills in the rapidly evolving field of Generative AI.
- **AI ML Participation:** Participated in the 1st episode of **StackVerse** held by **InnovAlt-on**. This event was organized by the Department of CSE - AI ML at **RNS Institute of Technology**.
- Took the “**Say No To Drugs**” pledge under the *Nasha Mukh Bharat, Khushaal Bharat* initiative, committing to a healthy and drug-free lifestyle.
- **Atlas – Intercollege World Affairs Quiz:** Participated in the prestigious intercollege quiz on global affairs organized by RNSIT MUNSOC, enhancing analytical and current affairs knowledge.
- **IEEE NextGen Summit:** Attended the IEEE NextGen Summit organized by IEEE SAC, gaining insights into emerging technologies and networking with industry professionals.
- **Agent AI Workshop:** Participated in the “Agent AI: Build an AI SaaS in 4 Hours” workshop by CapABL, acquiring practical experience in AI application development.
- **Quiz Competitions:** Demonstrated strong general knowledge and interest in Indian history and culture through participation in:
 - The “**India Inspires**”: **State-Level online quiz competition** on September 28, 2024, organized by **Disha Bharat**.
 - The **Naukri GenQuezt Contest: Independence Day Quiz** (on Aug 15, 2025) which tested knowledge on various topics related to Indian independence and history.
 - Achieved **96.28% in the Young Turks 2025 Quiz** conducted by Naukri, demonstrating strong analytical thinking and problem-solving skills.
 - Demonstrated continuous learning, technical curiosity, and broad knowledge of Indian heritage.

These activities collectively showcase a proactive approach to continuous learning, skill development in high-demand tech areas, and a commitment to broad knowledge and cultural awareness.
