

VINODH KUMAR G

B.E. Computer Science & Engineering | RNSIT, Bengaluru

tech.vinodhkumar@gmail.com | github.com/VinodhKumar-G | Bengaluru, Karnataka

EDUCATION

B.E. Computer Science & Engineering 2024 – 2028 (Expected)

RNS Institute of Technology (RNSIT), Bengaluru | Affiliated to VTU | NAAC A+ Accredited

Medal of Merit recipient — Semester 1 & 2 | Consistent top academic standing

INTERNSHIP EXPERIENCE

Team Lead Intern | UnlockDiscounts Dec 2025 – Mar 2026 | Remote

- Led a team of interns, coordinating task allocation, quality reviews, and delivery timelines across a 3-month engagement.
- Demonstrated strong analytical and problem-solving skills; recognized for enhancing team efficiency and maintaining quality standards.
- Gained hands-on leadership experience in a fast-paced startup environment, managing cross-functional responsibilities independently.

AI & Data Analytics Intern (Green Skills) | AICTE · Shell India · Edunet Foundation Aug – Sep 2025 | Virtual

- Completed 4-week Skills4Future program on Artificial Intelligence and Data Analytics with a sustainability focus.
- Applied AI/ML techniques to real-world datasets, producing analytical reports aligned to green-skill competencies.

AI for Sustainability Virtual Intern | AICTE & IBM SkillsBuild Early 2026 | Virtual

- Completed IBM SkillsBuild AI for Sustainability internship, applying AI methodologies to environmental and SDG-aligned problem statements.

DEF-Space Winter Intern | DEF-Space Program Feb 2026 | Virtual

- Completed a specialised winter internship program covering space technology applications and engineering design concepts.

KEY PROJECTS

UIDAI Enrollment & Demographic Trends — Anomaly Analysis | Data Science / AI |

github.com/VinodhKumar-G/UIDAI-Enrollment-Demographic-Trends-Anomalies-Analysis

- Conducted end-to-end analysis of large-scale Aadhaar enrollment datasets; uncovered regional, age-wise, and temporal societal trends using Python (Pandas, Matplotlib, Seaborn) and Jupyter Notebooks.
- Implemented statistical anomaly detection on national public-infrastructure datasets, generating actionable insights for transparent digital governance.
- Produced data-driven recommendations that demonstrate practical integration of AI in civic systems — directly aligned to IIT Bombay's public-interest research focus.

Aadhaar Enrollment Trend & Anomaly Detection System | AI-Based Analytics |

github.com/VinodhKumar-G/Aadhar-Enrollment-Anomaly-Detection

- Built a Z-score-based anomaly detection engine targeting Bengaluru Rural district enrollment data, automating identification of irregular spikes and drops that previously required manual review.
- Designed scalable analytical pipelines with explainable AI outputs and interactive data visualisations, reducing dependency on manual governance monitoring.
- Emphasises responsible AI: interpretable decisions, reproducible code, and clear documentation — attributes valued in research environments.

Mini UNIX-like OS Shell in C | Systems Programming |

github.com/VinodhKumar-G/Mini-OS-Shell-in-C

- Implemented a fully functional command-line shell from scratch in C, covering process creation (fork/exec), I/O redirection, piping, background job execution, signal handling, and environment variable management.
- Demonstrates mastery of core OS concepts — process scheduling, IPC, system calls — essential for systems-level research and low-level engineering roles.

Vehicle Emission Detection System | Computer Vision / AI

- Developed a Python-based CV pipeline to detect and classify vehicle emissions from image/video inputs using ML feature extraction and classification models.
- Applicable to smart-city and environmental-monitoring use cases; demonstrates integration of AI with real-world sensor/visual data.

TECHNICAL SKILLS

Languages: Python, C, C++

AI / ML / Data Science: Pandas, NumPy, Z-score anomaly detection, Statistical Inference, Prompt Engineering

Systems & DevOps: UNIX/Linux Fundamentals, OS internals, Git & GitHub,

Tools & Platforms: Jupyter Notebook, IBM SkillsBuild, NASSCOM Digital Engineering, VS Code

Soft Skills: Team leadership, analytical thinking, technical communication, cross-functional collaboration

CERTIFICATIONS & TRAINING

- **AI/ML using Python — Score 84%** — IITM Pravartak Technologies Foundation (NCrF Level 5.5) | *Feb 2026*
- **Digital Engineering Assessment** — NASSCOM (Industry-aligned, ER&D competency) | *Nov 2025*
- **Git Training (IIT Bombay – SINE / EduPyramids)** — IIIT Bangalore | *Score: 70% | Nov 2025*
- **Data Science Foundation** — Infosys Springboard | *Aug 2025*
- **Probability & Statistics / Statistical Inference using Python** — Infosys Springboard (3 courses) | *Aug 2025*
- **Identity Security for AI Age (8 CPE hrs)** — Saviynt | *Jan 2026*
- **Build AI SaaS — Agentic AI** — Workshop Participation | *Oct 2025*
- **React Portfolio Bootcamp** — Microsoft Student Chapter / Devtown | *May 2025*
- **Back-end Web Dev (Node.js & Express)** — Devtown | *2025*
- **Cloud Computing & DevOps** — Devtown | *2025*
- **Python & Artificial Intelligence** — Devtown | *2025*
- **Quantum Computing Basics & Qiskit** — Q-Club, RNSIT (Certificate of Appreciation) | *2025*

COMPETITIONS, QUIZZES & EVENTS

- **Tata Crucible Campus Quiz 2025** — Tata Group | *Dec 2025*
- **ELECTRATHINK Project Ideathon — Team AVYAYA** — IEEE CAS Society, RNSIT | *Dec 2025*
- **National Financial Literacy Quiz 2026 (Online Round)** — National Level | *Dec 2025*
- **IEEE NextGen Summit 2025** — IEEE RNSIT / IEEE Young Professionals, Bengaluru | *Oct 2025*
- **ATLAS Intercollege World Affairs Quiz** — Intercollegiate | *Oct 2025*
- **Unstop Management Quiz — Certificate of Excellence (×3)** — Unstop | *Oct 2025*
- **Young Turks 2025 — Certificate of Merit (Score: 96.28)** — Naukri Campus | *Sep 2025*
- **NationBuilding Case Study Competition 2026** — National Level | *Jan 2026*
- **MY BHARAT — Budget Quest 2026** — National Initiative | *Feb 2026*
- **Codequest Coding Challenges #25, #26, #27** — Naukri Campus | *2025–2026*
- **Data to Dashboard — SDG Edition (Luminous)** — Participation | *Apr 2026*
- **Quantum Sensing for Energy Sector** — Participation | *Feb 2026*

ACHIEVEMENTS & AWARDS

- **Medal of Merit** — Awarded for outstanding academic performance in both Semester 1 and Semester 2, RNSIT.
- **Young Turks 2025 Certificate of Merit** — Scored 96.28 percentile in competitive national quiz by Naukri Campus.

- Unstop Certificate of Excellence — Recognised three times in the October 2025 Management Quiz series.
- IIT Bombay Git Training Certificate (via SINE/EduPyramids) — Cleared proctored examination conducted remotely by IIT Bombay.
