STRENGTHS

🔗 Collaborative

Always keen to share my knowledge, help, discuss, teach and learn from others. Able to collaborate with cross-functional teams to create a high-quality end product.

★ Result-oriented

Many confuse progress with moving in the right direction. I always make sure to check if the team is on the right path.

✍ Detail-oriented

Continuously focused on how to improve my work and do it the best way I can.

🕒 Project management and prioritization

Before starting a new project, I always set time aside to have the entire team go through the tasks, prioritize them and assign a due date to make sure deadlines are promptly met.

Senior Front-End Developer at Bank of America

📞 +1-836-881-3699 @ Email 🔗 linkedin.com 📍 New York City, NY

SUMMARY

Senior front-end developer with 7+ years of experience in designing and building responsive web design in the financial industry. Proficient with CSS and JS Frameworks, with extensive knowledge of UX and User psychology. Notable achievements include boosting the conversion rate of an existing website by 80% with improved code and design.

EDUCATION

GPA | 3.7 / 4.0

EXPERIENCE

Senior Front-End Developer

2019 - Present

Bank of America

New York City, NY

The Bank of America Corporation is an American multinational investment bank and financial services holding company.

- Supervising and mentoring the front-end team (15 people)
- Used advanced JavaScript to create a cross-browser compatible user interface
- Designed a new, user interactive landing page, utilizing tools like HTML, XHTML, and CSS, achieving a 5.5/6 user score
- Joined with web designers to develop user interfaces and prototypes for a web-based internal financial manager system

Senior Front-End Developer

2014 - 2019

Western Union

New York City, NY

The Western Union Company is an American worldwide financial services and communications company.

- Supervised 15 front-end associates
- Helped the team stick to specific standards in developing web pages under company guidelines
- Used JavaScript to validate input values on forms to make sure that it's accepted before they are submitted to the server
- Boosted the conversion rate by 80% by improving the design
- Worked with CSS background, layouts, positioning, text, border, margin, padding, Pseudo elements and behaviors
- Communicated with back-end developers for any front-end problematic issues
